CURTIS TO BE POLICE JUDGE

HEARINGS OPEN TO PRESS

Commissioner Curtis Decides to Give Wide Publicity to Trial of Union Men

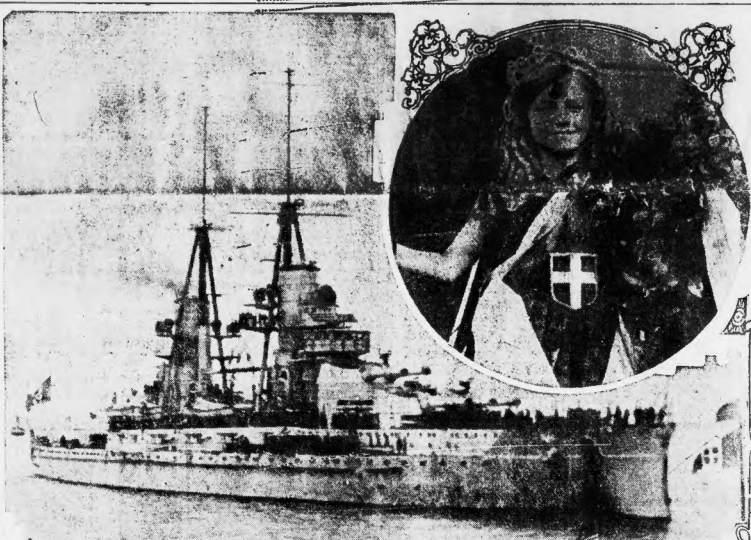

Police Commissioner Edwin U. Curtis will hear the cases of eight policemen accused of violating rule 35 of the police manual. The usual trial board of three captains will be dispensed with and the commissioner himself will hear the evidence and render his decision.

Mr. Curtis reached this conclusion following a conference with James H. Foley and John J. Donnelly, counsel for the union policemen. He further agreed that the members of the press be admitted into the hearing room that the matters might be given the widest publicity.

The general public will not be admitted, owing to the limited amount of space in the hearing room. It will be the first time the union has attended a police department hearing since 1914, when the Irish trial cases were heard.

MESSENGER OF BANK ROBBED

Four Armed Men Escape With Money in Daring Robbery Holdup

Four bandits, all of them apparently youthful, robbed Raymond N. Carney, messenger for the Fidelity Trust Company, of about \$12,000 in money and checks as he was about to drive out of the yard of the Grocers Baking Company at No. 65 East Cottage street, Roxbury, today.

The bandits escaped in a stolen taxicab in which young Carney was riding. The taxicab was one of the models of the latest make of the motor. The lot with the money, which he had just collected from the Grocers and Grocers Baking Company, was about to start back to the bank.

Young Carney has been making the calls in Roxbury for the taxicab company for some time. He called first at the General Baking Company, and received \$2,500 in cash and \$100 in checks. Then he went to the Grocers Baking Company and received \$2,500 in cash and \$100 in checks.

And the Pebbles Were Diamonds!

The farmers of Kimberley were dissatisfied. They said they couldn't make a living from their farms. And all the time their children in the fields were playing with diamonds.

But they didn't know. They thought they were pebbles. They died poor.

Lots of people are just like those Kimberley farmers. They look for Opportunity with a telescope, in some far-away place, when it is really so close that they could reach out their hands and grasp it.

Don't miss the advertisements. They are business mines of opportunity. They tell of values that you might never know if they were not there to guide you.

Don't miss them. They will save you money.

Hearst's Magazine—a Liberal Education

HEAVEN'S AIR ARTHUR CONAN DOYLE
—Page 25, September Hearst's

TAKE ANY magazine and compare it with Hearst's. Count the features—see if it has twenty-eight as has Hearst's for September. Compare simply the amount of reading matter—the number and variety of illustrations. See if you find as to the money-value you get in Hearst's. Then compare its article by article, story by story, picture by picture with Hearst's. Compare the writers; their skill and reputation. Contrast the ordinary magazine story with the splendid fiction you will find in Hearst's. Contrast the old-fashioned long-winded magazine "article," with the clear and sparkling of those in Hearst's.

INTO ANARCHY—AND OUT AGAIN
by MARIE GANZ
—Page 35, September Hearst's

FOURTEEN out of the twenty-eight features in Hearst's for September are serious features. Not dull, not preachy, but neither fiction, nor frivolous. For example, Sir Arthur Conan Doyle outlines his conception of heaven; Marie Ganz writes of her life as an East Side child; Lt. Commander Richardson tells how it feels to be lost on an airplane in mid-ocean; Romaine Pennoa, President of Brazil, gives his impressions of America; B. C. Forbes introduces a man who has solved the Labor Problem; and so on throughout the whole brilliant list.

DO FORTUNES JUST HAPPEN?
by WILLIAM A. DUFFY
—Page 45, September Hearst's

ARE you a judge of really good short stories? How about W. W. Jacobs, the noted English humorist, in "Husbandry"? or Maurice Level, the best of the modern French writers, in "All Saints' Day"? or Larry Evans, Robert W. Chambers, F. Britten Austin, Derek Vane, Frederick I. Anderson, Arthur Somers Roche—each in a bit of his very best work? Nine great short stories in Hearst's for September. See if you can find nine to equal them in any two other magazines.

THE ARISTOCRAT by LARRY EVANS
—Page 55, September Hearst's

DO you like Novels—fresh from the pen of the author? Do you like the "best-sellers" before everybody else has talked them to death—before they become moving pictures or even books? There are three—and often four—great serials always running in Hearst's. In September, for example, are "This Light Must Live," a vivid story of New York Bohemianism by Arthur Stringer; "Resurrection Rock," a mystery of the Michigan Forests by Edwin Balmer; "The Box with Broken Seals," a tale of love and adventure by E. Phillips Oppenheim.

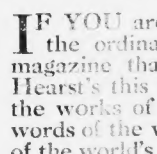

THE VOICE FROM THE MACHINE
by ARTHUR SOMERS ROCHE
—Page 65, September Hearst's

MAYBE you like books, pictures, plays, perhaps even poems! Maybe you like to glance now and then at an interesting item on science. Seven or eight pages of Hearst's each month are regularly devoted to little reviews of this sort. What do you know of Joseph Conrad's new book; of Angela Morand's new poem; of the "Three Wise Fools" of Castelnau, the great Spanish painter; of the new sort of weather-reporting that must result from airplanes? See Hearst's for September.

BODY AND SOUL by ROBERT W. CHAMBERS
—Page 75, September Hearst's

The object of Hearst's is to entertain and enlighten. Through all its entertainment, however, runs a certain serious purpose—a definite mission. And that mission is to discuss, elucidate and solve—so far as is possible—the vital questions of family and public life that people everywhere are themselves considering and discussing.

THE VOICE FROM THE MACHINE
by ARTHUR SOMERS ROCHE
—Page 85, September Hearst's

IF YOU are not interested in a magazine a bit beyond the ordinary—if you don't particularly care for a magazine that will make you think—you won't want Hearst's this month or any other. BUT if you want the words of the world's great writers; if you want the thoughts of the world's great thinkers; don't fail to make sure each month—starting today with September—of your regular copy of

throughout the whole civilized world!

Camels are unlike any other cigarette—entirely a creation that has
proved a revelation to smokers.

They are so refreshing in flavor, and
wonderfully mild; yet, Camels have
"body" that exceeds your most exacting
demands!

Camels charm is due to their quality
and to their unusual and expert blend
of choice Turkish and choice Domestic
tobaccos.

Once you know Camels you'll prefer
their expert blend to either kind of
tobacco smoked straight!

No matter how liberally you smoke
Camels they never tire your taste. And,
they never leave any unpleasant cigarette
aftertaste or any unpleasant cigarette
odor!

You'll prefer Camels quality to premiums,
coupons or gifts.

18 cents

Camels are sold everywhere in scientific
sealed packages of 20 cigarettes, or ten packages
of 20 cigarettes each, in glassine paper covered
carton. We strongly recommend this carton for
the home or office supply or when you travel.
